Subject: FW: Drug Identification Bible

Hi Julie,
The Drug Identification Bible is a must have for the drug lab. I put the PO in the same way as last year and it got rejected. The book has to be sold directly to law enforcement agencies and they will not sell to vendors. Signing them up on an RFR is a possibility but seems like a lot of work for them for 4 books. Anyone have any ideas?

Also, would portable lab benches be considered a lab supply?

Acquiring the Wiley GC/MS Spectral Library collection would also be very nice if it's at all possible.

Peter,

You entered an order for Amera-Chem to purchase 4 Drug Identification Bibles. You have to purchase these through a Contract Vendor. There is an RFR for books and educational materials so if you look on www.comm-pass.com under Contract 611615 you can see if one of those vendors can provide you with this book.
